### The Future of the White House & Schönaugasse / Schönaugürtel in The Gallery mini

Two exhibitions, two projects! - The Future of the White House & Schönaugasse / Schönaugürtel in The Gallery mini. In the academic year 2023/2024, joint education in the field of architecture between TU Graz and BUT Brno took place. During the winter semester, the teams worked together on two assignments.

Students on the master level worked on the proposal for the renovation of the former Administrative building of the Municipal Committee of the Communist Party in Brno. The goal of the project was to find a suitable programme that creates an inclusion of different social groups and to implement it in an architectural design.

Students on the bachelor level worked on the proposal for an intercultural centre in Graz on the corner of Schönaugasse and Schönaugürtel streets. The programme of the project is a cultural centre for both immigrants and locals, offering low-threshold activities (e.g. language and cooking classes, informal counselling, etc...) and hosting events in order to encourage cultural and personal exchange. Students aimed at the public and social components of urbanity and the architectural strategies that can lead to their improvement.

The opening will take place on Thursday, April 18, from 18:00 in the MINI gallery at the Faculty of Architecture BUT, Poříčí 5.

The exhibition in Graz was open on Friday 28<sup>th</sup> of June. Students and one teacher from the Brno University of Technology participated in the opening of the exhibition (27.-29.6.2024).
