

FINAL REPORT - Project 92p13

AKTION Österreich - Tschechische Republik

Study Exchange:

Current challenges in Social Economy and Social Work

The student exchange took place from 13th to 21st October 2022. Eight Czech students of Master's degree in Social Work from Ostrava made a study trip to Vienna (FH Campus Wien) and eleven Austrian students of Master's degree in Social Economy and Social Work from Vienna made a study trip to Ostrava (University of Ostrava/Faculty of Social Studies).

This exchange aimed to deepen their knowledge and to acquire new competencies in project management and management of social organizations. Excursion extended their theoretical knowledge about the current situation of social policy in Austria, in the Czech Republic and the European Union. Students were offered diverse scientific research experiences in social economy and social work. They also got practical experiences of Austrian and Czech experts from social organizations. Finally, students learned about daily activities of selected social organizations (according to their preferences). Students brought knowledge of their own country and compared it with the host institution which triggered a productive learning circle.

Students prepared detailed questions for organizations prior to arrival to the host country and prepared selected readings in advance related to social policy and project management. In the host country students were offered a programme consisting of lectures, discussions and organisation visits. Evaluations have shown a high level of satisfaction with the programme. As one of the most important learnings students reported the chance to get in closer contact with neighbouring countries and to learn from each other.

Projekt 92p13

Study Exchange: Current Challenges in Social Economy and Social Work

The final report

In 13.-21.10.2020 we welcomed 11 students from Austria who came to Ostrava because the project 92p13 on which University of Ostrava, Faculty of Social Sciences has been cooperated with FH Campus Wien. There were these students of Social economy and social work:

Hahn Isabella, Raffler Birgit, Marmakovic Viktorija, Seyfriedsberger Michael, Seyrling Sandrina, Cosic Andrea, Jelicic Ana-Maria, Jachs Sarah, Petrasch Barbara, Felgitsch Klaus, Moser Carina,

ICPM (intercultural project management) is part of Joint Degree – European master study programme of Social work and social economy of the University of Ostrava along with Austrian FH Campus Wien (and also other universities are joined).

Austrian students have been prepared to study field excursion because the materials they got before ICPM. The main language of whole excursion was English and students had available translation from Czech to English during the excursion.

During the staying in Ostrava students had possibility to attend these lectures:

- Presentation of the structure of project application, a short look at the possible sources of funding from the ESIF in the programming period 2021 – 2027 in the Czech Republic- + other topics.
- Social work sensitive to gender, sexual and relational diversity
- Volunteer management.
- Program evaluation capacity building“.

Within the excursion in organization students could visit these organization:

- Asociaci Trigon,
- Duhový Dům,
- Komunitní práci (Diecézní Charita Ostravsko-opavská).

In addition to students from Austria, students from Taiwan and Italy participated in the ICPM with Austrian students. These students studied in Ostrava as part of the Erasmus program.

In response to excursion students had the task to create one project proposal in small team groups in partnership with three selected project organization.

Students received support from coaches: Mgr. Šárka Kopřivová, Ph.D. Mgr. Anna Musialová, Ph.D., Mgr. Karel Pavlica, Ph.D. and Salvatore Alaimo, Ph.D., from Grand Valley State University, in Grand Rapids, Michigan, USA, who is currently working on a Fulbright scholarship in the Faculty of Social Studies.

Students of the Social Work doctoral study program also participated in the project, who not only participate in the preparation of the program, but especially accompany foreign students to individual organizations.

The last day the project proposals of students were presented in small group of students,

teachers and representatives of organization.

Besides overall evaluation was made - students wrote us how they evaluate excursions, lectures and organization of field excursion and they added their recommendations for the next years.

At the end of the educational exchange, the students were asked to process the results of the team group as a final report, which will include an assessment of the project proposal. This report will be assessed by the University of Ostrava and students will receive feedback on their project proposal.

Because the project students could experience how bilateral cooperation works in practice and they showed us great interest to attend cross-border projects also in the future.

We think it was very important experience to get know welfare system and organization of social work in neighboring state and its specific problems in social area.

That is why we would like to thank you very much for the opportunity to realize this project and we hope that final report and the project billing will be correct.

With best regards

Mgr. Šárka Kopřivová, Ph.D.
